Curriculum Details

Curriculum type	Local
Curriculum planning	
Our thematic approach, with projects and picture books, teaches children essential skills. They learn, build self-confidence and a positive attitude through reading, observing, exploring, sharing and problem-solving. We will follow the “Kindergarten Education Curriculum Guide” (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.	
Learning / Teaching approach and activities	
Education at Ching Lok is child-centered with a wide range of activities including experiments and creativity involving parents and fun.	
Assessment of children’s learning experiences	
Progress and performance is observed and assessed monthly and annually. Parents understand their children because we use qualitative and quantitative analysis and produce reports and portfolios.	

School Characteristics

School vision and mission
